

# When Square Tube Just Won't Do

Introduces Round Staple-In Tube!

## Mill Finish, 1-1/4" Diameter

- ◆ Similar strength characteristics to 1-1/4" diameter, 16 gauge stainless steel and 1-1/4" diameter, 1/8" sidewall aluminum tubing.
- ◆ The staple channel opening is the same as all Steel Stitch extrusion profiles, ensuring compatibility with Steel Stitch Fabric ZipStrip and PVC ZipStrip.
- ◆ Can be bent by three-wheel benders (like the Steel Stitch PRB3000 and others), to very tight radii, in the 12" range. (Requires dies wide enough to accept the 1-1/4" diameter.)

**NEW!**

**Steel Stitch Item #9125RMF**

Mill Finish Aluminum

Length: 25-ft.

Standard Pkg.: 5 Pcs.

Shipping Wght: Approx. 92-lb.

ACTUAL SIZE

Available **ONLY** Direct from Steel Stitch!
